I think it would have been better if there weren't so much presentation in 3 different rooms at the same time.

Starting time should be later.

encourage more participants

No, it was almost good. I have no suggestions for the future.

- Shorter sessions with more defined topics
- Try to keep time schedule better

But it was a wonderful congress: thank you so much for all the work done: we enjoyed it a lot!

Everything OK. Continuity!

Keep on the good job

Most and overall: crietria selection for oral presentations. Posters can be support of everything - but not a 12 minutes show in front of respectable assembly.

Cooperation with General Practitionners and Specialists in different fields as: rheumatology, dermatology, cardiology, orthopedics (neurology was well represented in this congress).

As well special sessions related to Medical Tourism (Travel agents, Spas managers, Hoteliers)

These are positive comments and remarks. I did enjoy very much the Congress and congratulate all the organizators for this very nice event.

Invited speakers from official representatives of each country participating in the Congress

I want to congratulate the main organiser Biol Munteanu for the excellent organisation of the congress. I was impressed because the scientific sessions were well balanced regarding the informations, the social events represented the specific of our nationality and in the end, this impresive international manifestation was a special occasion to interact with other colleagues from our field.

A suggestion would be to organise more such scientific events.

Congratulations for all team wich made possible such outstanding event!

Thanks and Congratulations.
